

NCR SelfServ™ Order and Pay

Food Service

Want to give your restaurant patrons the option to order and pay without staff assistance?

YES

The NCR SelfServ Order and Pay

The NCR SelfServ Order and Pay is a kiosk solution that revolutionizes traditional restaurant ordering and payment transactions. Customer satisfaction is increased with an order process that is quicker and more accurate. Customers will have reduced lines and wait times. In addition, your bottom line will be increased with higher customer throughput, upsell opportunities and less food waste.

- **Innovative customer service and maximized efficiency**

NCR SelfServ Order and Pay provides your customers with better service while you get more for your labor dollar. The solution allows customers to process their transactions quickly and accurately. The multimedia capabilities provide an effective upselling opportunity by featuring new menu items.

- **Flexible and easy to use**

NCR SelfServ Order and Pay makes ordering and paying user-friendly for your customers. This self-service solution accepts multiple tenders – cash, check, credit cards and debit cards – and ties directly into your point of sale. Beyond its intuitive design, NCR SelfServ Order and Pay allows your customers to complete transactions in the language of their choice. This customer-focused solution enhances the customer experience, increasing customer satisfaction and loyalty.

- **Reliable and easy to service**

In addition to safeguarding your technology investment, the NCR SelfServ Order and Pay passes comprehensive environmental and compatibility tests that increase reliability and availability.
