

NCR XpressPort 60

Ready to offer faster, more efficient guest services right in your hotel lobby?

YES

Give your guests more of what they really want

The NCR XpressPort 60 helps you meet the growing demands for self-service convenience by offering a fast and easy way for your guests to check in and out. Designed to support a number of guest services, including check-in, room key validation and dispensing, check-out and folio printout, the NCR XpressPort 60 is the ideal way to help build guest loyalty, while ensuring a smooth and successful business operation right in your hotel lobby.

- **Empower your guests to do it all**

Streamline the check-in and check-out process and enable your guests to manage every aspect of their hotel stay—independently—in a matter of minutes.

- **Accelerate transaction times**

With a built-in 2.8 GHz Intel® Pentium® 4 Processor, the NCR XpressPort 60 expedites transaction times so you can move more guests faster through your lobby and simultaneously process more transactions.

- **Improve customer service**

By automating routine tasks such as check-in and check-out with the NCR XpressPort 60, your employees can focus on addressing more complex guest issues for better and more personalized customer service.

- **Extend guest convenience**

The NCR XpressPort 60 features a fully automated, built-in key card encoder and dispenser that accurately validates and dispenses room keys. Guests can enjoy an even faster check-in time and never have to worry about receiving an invalid room key.

- **Enjoy a smaller footprint**

Minimize the amount of real estate your self-service device occupies with the NCR XpressPort 60, which seamlessly blends into any hotel environment with its compact footprint and tightly integrated components.
